

Certified organic growth

Incotec contributes significantly to the growth of vegetables and field crops by making higher yields possible. This supports a steady food supply for a growing world population and at the same time reduces the use of crop protecting products and other additives.

CERTIFIED ORGANIC GROWTH WITH INCOTEC

We do everything within our power to improve seed performance, contributing to global food safety and security. We are committed to minimizing our environmental impact and always look for the most sustainable way to deliver solutions that help our customers achieve their goals.

This is why we are developing a growing organic product portfolio. We have a range of film coats, the Disco Classic and Advanced, that are certified by Skal. We also offer other organic products such as our Split Pill for lettuce and chicory, our Splash & Grow for celeriac and our SDR treatment for spinach. The very latest priming in our organic assortment is our Promotor Organic for squash and, coming soon, Promotor Organic for tomato, brassica, carrot, parsley, pepper and Solanum torvum.
